

on July 10, 1911, and September 5, 1911, at points to be hereafter designated.

Full information concerning these examinations can be procured upon application to the "Surgeon-General, U. S. Army, Washington, D. C." The essential requirements to securing an invitation are that the applicant shall be a citizen of the United States, shall be between 22 and 30 years of age, a graduate of a medical school legally authorized to confer the degree of doctor of medicine, shall be of good moral character and habits, and shall have had at least one year's hospital training, after graduation. The examinations will be held concurrently throughout the country at points where boards can be convened. Due consideration will be given to localities from which applications are received, in order to lessen the traveling expenses of applicants as much as possible.

The examination in subjects of general education (mathematics, geography, history, general literature, and Latin) may be omitted in the case of applicants holding diplomas from reputable literary or scientific colleges, normal schools or high schools, or graduates of medical schools which require an entrance examination satisfactory to the faculty of the Army Medical School.

In order to perfect all necessary arrangements for the examination, applications must be complete and in possession of the Adjutant-General at least three weeks before the date of examination. Early attention is therefore enjoined upon all intending applicants. There are at present sixty-one vacancies in the Medical Corps of the Army.

#### THE LANE MEDICAL LECTURES FOR 1911.

The Lane Medical Lectures were founded in 1896 by Dr. Levi Cooper Lane, then President of Cooper Medical College. They consist of a "free course of lectures on medical subjects by men distinguished at home or abroad for their work in either medicine or surgery, and are intended for medical students and the medical profession at large."

The Directors of Cooper Medical College have invited Dr. Ernest Fuchs, Professor of Ophthalmology at the University of Vienna, for the course of 1911. The course will consist of ten lectures and demonstrations to be given in Lane Hall of Cooper Medical College during the week beginning August 21st. The program is as follows:

- August 21st—11 a. m. Operations on the Eye.  
4:30 p. m. The Eye in Tabes.
- August 22nd—11 a. m. Trachoma.  
4:30 p. m. The Eye in Tabes.
- August 23rd—11 a. m. Tumors of the Eye.  
4:30 p. m. The Eye in Brain Affections.
- August 24th—11 a. m. General Symptomatology.  
4:30 p. m. The Eye in Brain Affections.
- August 25th—11 a. m. Corneal Ulcers.  
4:30 p. m. The anatomical and functional development of the eye from its lowest to its highest type, through the animal kingdom.

All of these lectures are intended for the general practitioner as well as the specialist. The lectures will be delivered in English in Lane Hall, San Francisco, and will be fully illustrated. Members of the medical profession, including students of medicine, are cordially invited to attend.
